WELCOME TO THE WORLD OF FARMA BIJOUX!

High quality, ethics and respect for nature are the key words which better identify our brand Farma Bijoux.

Each earring is manufactured with the best selected materials and enriched with the original Crystal of Swarovski®.

The studs are made of brass with nickel free treatment and covered by a fine layer of white bronze. The final result is an hypoallergenic, shiny earring which is not subject to oxidation process.

100% Made in Italy

At Bioetic Bijoux we carefully select each material involved in the production process. We employ:

- Partly recycled components;
- Raw materials free of any toxic or cancer causing substances;
- Studs and closures made of brass with nickel free treatment and white bronze, among the safest and less allergenic components on the market;
- Crystals of Swarovski® (the only one 100% lead-free)
- Table displays and earring cards made with FSC Paper;
- Galvanizing process carried out by Italian companies in full compliance with the European standards for waste disposal.

We are proud to affirm that Farma Bijoux is a totally 100% Made in Italy brand! Our earrings are completely designed and manufactured in Italy. We have a strong work ethic and we don't support any type of exploitation of labour.

Recommendations

Please clean your lobe and each component of the earring with a cotton ball and alcohol the first time you wear your Farma Bijoux earrings in order to avoid any discomfort or risk of infection.

If you want your earrings to last longer, please don't sleep with them and do not grab the crystal when you remove it. More info on www.farmabijoux.com.
